

## 2014 International Cartel Workshop

FEBRUARY 19-21, 2014

The 2014 International Cartel Workshop will continue the tradition of instruction by demonstration, with experienced faculty from around the globe taking you inside a hypothetical international cartel matter—from detection by government enforcers to the disposition of government prosecutions and private damage claims. The workshop will also highlight new developments in the law and leniency practices around the world, with leading enforcers and experienced private practitioners demonstrating how critical decisions are made on both sides of the table and providing examples of important interactions between counsel and enforcers. The 2014 Workshop's international faculty includes many of the most accomplished cartel attorneys in the world, as well as the most senior cartel enforcement officials from a variety of jurisdictions.

WilmerHale Partner Thomas Mueller will be a featured speaker on the following panels:
