

2014 NACD Board Leadership Conference: Beyond Borders

OCTOBER 12-14, 2014

"Beyond Borders" is about more than extending your operations past state and country lines. It's about expanding the ways in which you think about business, boardroom and global issues. It's about the convergence of new models of thinking with tried and true best practices and about connecting the dots between seemingly disparate subjects to create a new framework for looking at strategy and risk. NACD's 2014 annual Board Leadership Conference will encourage you to go beyond your limits in ways that will benefit your company and your personal development as a director.

This year's conference promises to be bigger and better than ever with a new Global Village, which will feature embassy officials and subject matter experts discussing governance and business practices across the globe, an enhanced Social Media Lab, where attendees can learn more about how to take advantage of mobile technologies, and an enhanced set of break-out sessions broken out by subject area and designed to help you get maximum value out of your time at conference.

The 2014 NACD Board Leadership Conference will help directors connect the dots between leading global practices, provide ideas for how your company can become stronger and more sustainable, and how you as a director can continually broaden your skills set and the value you bring to the boardroom.

WilmerHale Partner Mark Cahn will participate on a panel entitled, "Inside the SEC: Anatomy of An Agency."
