

Cybersecurity Law Institute 2015

MAY 20-21, 2015

In 2015, it is more important than ever that in-house and outside counsel stay abreast of the most current developments and best practices in cybersecurity. Those lawyers who ignore cyber threats are risking millions of dollars for their companies or their clients. Recent reports by Cisco and the World Economic Forum both highlight the paramount importance of cyber risk management.

Attendees to this Georgetown Law Continuing Legal Education event received insights on the best governance, preparedness, and resilience strategies from experienced government officials, general counsels, and cybersecurity practitioners who face these issues on a daily basis.

WilmerHale Partner Benjamin Powell interviewed keynote speaker, FBI Director James B. Comey on the topic, "Cybersecurity Challenges in the 21st Century." [View the interview.](#)
