

14th Annual Rocky Mountain Intellectual Property & Technology Institute

JUNE 2-3, 2016

The Rocky Mountain Intellectual Property & Technology Institute will provide a real-world discussion of developments across all areas of IP and tech law:

- Patent law and litigation: trends in case law, in damages and in 101 practice and more.
- Patent prosecution: what's going at the PTAB, in international protection and in design patents?
- Trademarks and copyrights: hear from the TTAB chief judge, hear from an in-house panel about brand enforcement strategies, and hear about copyrights and the rise of Big Data.
- Transactions and licensing: hear about doing business in India and China, about data security and Big Data, about funding early stage tech companies, and more.

Partner Gregory Lantier and Counsel Matthew Leary will be guest speakers at the event.
