

American Conference Institute's EAR Bootcamp

MAY 24-25, 2017

Unlike other training events, ACI's EAR BOOT CAMP is specifically designed to drill down into core EAR requirements and impart practical know-how for industry compliance. Practical, in-depth sessions include export control reform and re-classification, deemed exports and international technology transfers, and EAR licensing and exceptions. WilmerHale Senior Counsel Ronald Meltzer will participate in the panel discussion "What To Do When You Discover an EAR Violation: When and How to Draft a Voluntary Disclosure, and Mitigate Penalty Risks."
