

## HR Reimagined with Arnon Geshuri

NOVEMBER 14, 2017

On Tuesday, November 14, the Jewish High Tech Community (JHTC) will host a program focused on attracting, retaining and developing talent in a hyper-growth company with Arnon Geshuri. WilmerHale is a venue sponsor for this program. **Arnon Geshuri** joined Tesla in November 2009 as the vice president of human resources and was responsible for driving HR operations and the global recruitment efforts.

The Human Resources function is a company's strategic advantage in a competitive talent marketplace. During the session, we will have an engaging discussion on how building the right HR team and driving the right culture and people programs have helped make companies successful from the early stages of their growth. We will walk through real examples and go behind the scenes during the early days of several Silicon Valley companies. It will be an interactive, insightful, and fun conversation.
