

IDRA Business and Law Roundtable Series 2018: Corruption and Fraud Issues in International Commercial and Investment Arbitration

MARCH 10, 2018
KWM HONG KONG OFFICE

The roundtable is part of IDRA's Business and Law Roundtable Series. The first roundtable of the series is dedicated to corruption allegations in international commercial and investment arbitration. In light of the increased compliance controls and the shock waves that Patrick Ho's corruption trial has generated, the event offers an interactive platform for practitioners and in-house lawyers in Hong Kong to enhance their understanding of anti-bribery and anti-corruption compliance issues in the context of commercial and investment disputes.

WilmerHale Partner Steven Finizio will speak on the topic of "Corruption and Fraud Issues in International Arbitration: US Law and Practice."
