

## niTRON Summit 2019

JANUARY 17–18, 2019  
YERBA BUENA CENTER FOR THE ARTS

The two-day niTRON Summit offers attendees the chance to understand what has happened and learn what's to come as blockchain levels the online playing field and creates new opportunities for entrepreneurs and investors. niTRON Summit provides a platform of communication for a wide range of projects and blockchain practitioners, as well as KOLs from other industries. The summit aims to break down industry barriers, explore potential blockchain solutions and share visions of the future with one another. TRON hopes to help small and medium blockchain projects develop and scale rapidly based on their experience and techniques.

On the second day of the summit, WilmerHale Partner Michael Mugmon participated in a discussion on the future of cryptocurrency in the US.
