

11th Industry Forum on International Technology Transfers, Cloud Computing & Deemed Exports Compliance

FEBRUARY 6–7, 2019
PARK HYATT WASHINGTON

Distinct from other export controls conferences, this forum centers around operationalizing and addressing distinctive compliance risks stemming from intangible exports, including cloud computing, technical collaboration, R&D, social media, email usage and foreign national employment.

As exporters embrace and implement bleeding edge technologies, the risk of a violation and subsequent enforcement action is at an all-time high—you can't afford to stand idly by while your compliance protocols become antiquated and leave your business units vulnerable.

WilmerHale Senior Counsel Ronald Meltzer will moderate the panel "Regulatory Enforcement Interview: Lessons Learned From Recent Enforcement Actions and What to Expect for 2019."
