

## WEST: Women in Venture Panel Discussion

JULY 16, 2019 THE ENGINE

Venture Capital is a critical component of the life science ecosystem. Yet, the challenge of accessing VC investment or building a career in venture for women remains a common topic in the industry. Boston is fortunate to have a growing number of women in venture across all stages of investments, investment areas and seniority. Please join Women in the Enterprise of Science and Technology (WEST) for a panel discussion with leading women investors as they discuss their own career paths and what it's like to be an investor in the life sciences.

WilmerHale Partner Cynthia Mazareas will moderate this panel featuring representatives from Novartis Venture Fund, The Engine, Novo Ventures, Equality Asset Management and Echo Health Ventures.
