

## ABA and IBA International Cartel Workshop

FEBRUARY 1-3, 2012

This 2012 program will feature experienced faculty from around the globe taking you inside a hypothetical international cartel matter—from detection by government enforcers to the disposition of government prosecutions and private damage claims. It will also highlight new developments in the law and leniency practices around the world, with leading enforcers and experienced private practitioners demonstrating how critical decisions are made on both sides of the table.

WilmerHale Partner Thomas Mueller was a featured panelist in three sessions at this event: "The Decisions To Seek Leniency In Multiple Jurisdictions," "The Company Seeks Markers In The U.S., Korea, and Australia," "A Concluding Roundtable: The 10 Toughest Issues In International Cartel Enforcement."
