

## Intellectual Property Owners Association Webinar: Bilski Decision

2010-07-08

The U.S. Supreme Court's long awaited *Bilski* decision on patent eligibility has finally arrived. IPO's balanced panel of experts will discuss what the decision means for inventors of business methods, software, and innovations in other important areas such as personalized medicine. The panel includes a lawyer for the inventors in *Bilski*; the author of an amicus brief in the case that held that the patenting of business methods hinders innovation; and an experienced and "neutral-on-the-issue" IP litigator. This webinar will include a wide-ranging discussion that will consider what the Federal Circuit and district courts will do next.

WilmerHale partner Donald Steinberg will be a featured speaker at this webinar.
