

MassBIO: JP Morgan 2015 Recap

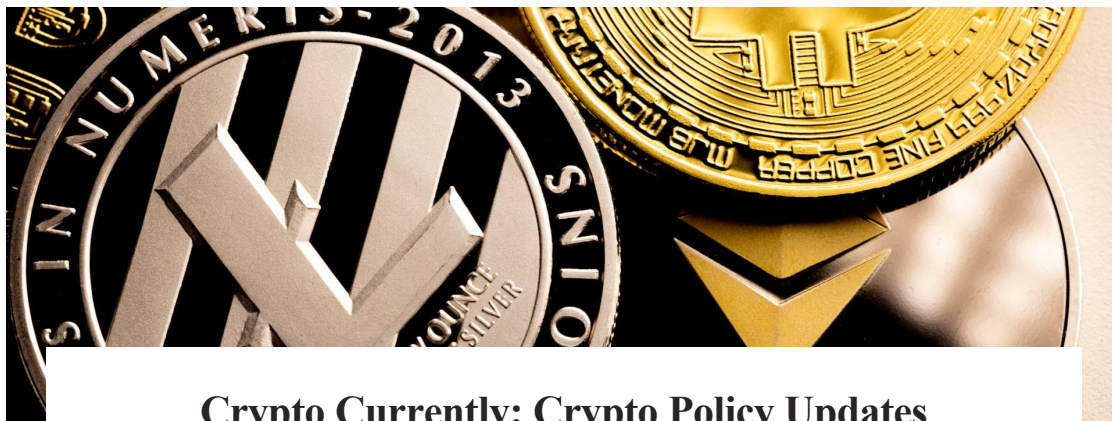

CAMBRIDGE, MA

The annual JP Morgan Healthcare Conference in San Francisco is one of the largest and most informative healthcare investment symposiums in the industry. It brings together global industry leaders, emerging fast-growth companies, innovative technology creators and members of the investment community. Each year hundreds of companies, both public and private, deliver presentations to more than 4,000 investors. In addition, thousands in biotech descend upon San Francisco to network, attend meetings and gain an inside view even if they can't secure an official conference invite.

Given the state of our industry, the Conference is more relevant than ever. So what do you do if you can't make it to San Francisco? Join MassBIO for a recap of the week and hear from a select group of Conference insiders, including: Brian M. Gallagher, Jr., PhD, Partner, SR One Ltd.; David Socks, Venture Partner, Frazier Healthcare; Robert Ward, President and Chief Executive Officer, Radius Health, Inc.; and moderator Ben Thorner, Associate Vice President, Head of Business Development and Licensing, Boston Innovation Hub, Merck Research Laboratories.
