

## MIT Enterprise Forum: Storytelling in the Digital Age: On the Road to Immersive Journalism

CAMBRIDGE, MA

Multimedia, new graphic tools, visual storylines, interactive content, automated story-writing software, hyperlinks and emerging virtual reality are just some of the new capabilities that journalists use today to tell a story.

Journalism is being digitally disrupted just as the music, movie, publishing and television industries were. We'll explore the world of digital journalism during this May event. What's here now? What's on the horizon? What are the opportunities for entrepreneurs to impact digital journalism? Join us to explore journalism in the digital age and the road to Immersive Journalism.
