MIT Innovation Series: Neuroscience Drug Discovery and Development

2008-11-12

MIT will be presenting an innovation series entitled, "Neuroscience Drug Discovery and Development: The Route to Disease-Modifying Therapies." This seminar will hold a discussion ofhow disorders of the brain, including neurodegenerative diseases such as Alzheimer's and Parkinson's disease and psychiatric diseases such as schizophrenia and depression, pose some of the hardest challenges for the biopharmaceutical industry.

WilmerHale is a sponsor of this event.
