

## Practising Law Institute: Antitrust Institute 2014: Developments & Hot Topics

MAY 5-6, 2014

With an emphasis on new developments while providing a refresher of key principles, this year's Institute will examine current merger issues, price fixing, the legality of joint ventures and other competitor collaborations, "vertical" restraints on customers and suppliers, including resale price maintenance, standards for complying with price discrimination laws, and the latest information on the state and federal enforcement priorities. Also included in the program is an important overview of the current trends in the international antitrust arena, including the European Union and Asia. Hear from nationally-known practitioners and key government regulators, and keep current with the latest information.

WilmerHale Partner Molly Boast will moderate a panel entitled, "Dealing with Enforcement Issues and Opportunities," during which she will lead a discussion on the latest developments facing antitrust law today.

Additionally, Department of Justice, Federal Trade Commission and State Attorneys General Offices will provide insight on the latest in enforcement.
