

Practising Law Institute: Corporate Governance – A Master Class 2014

FEBRUARY 12, 2014

Practising Law Institute will host its annual program, Corporate Governance – A Master Class 2014 as a live program in New York and available via webcast. Public companies and their directors and officers face increasing responsibilities and are under intense scrutiny from investors and regulators. Legal and regulatory changes, including Sarbanes-Oxley, Dodd-Frank and listing standards, and overall changing expectations in the marketplace contribute to this new challenging environment. Corporate governance provides the framework within which directors and officers must operate in fulfilling their responsibilities. Further, both in-house and outside practitioners confront significant challenges in mastering corporate governance standards in light of the continuing, rapid development of federal, state and market developments, in providing day-to-day counseling and in addressing a crisis. Join our faculty as we discuss evolving standards and practical ways to deal with this challenging “new normal.”

WilmerHale Partner Meredith Cross will provide opening remarks and moderate the panel "Companies in Crisis – Best Practices for Boards and Their Advisors for Dealing With All Types of Non-Financial Crises." Partner Lillian Brown will provide a lunch presentation titled "Dealing

With the Proxy Season – A Practical Guide."
