

## Practising Law Institute: Global Capital Markets & the US Securities Laws 2014: Raising Capital in an Evolving Regulatory Environment

JUNE 4, 2014

Capital markets are adjusting to a wide range of evolving regulatory standards that affect the way in which offerings are conducted around the world. At the same time, issuers around the world are subject to changing accounting and corporate governance standards, while market participants navigate new ground in derivative product regulation. Issuers and market participants also face an increasingly active global enforcement environment targeting activities taking place around the world. This program will provide an update on domestic and international regulatory and market developments, bringing together an engaging group of expert practitioners and senior regulators for an in-depth look at how the US securities laws work in the context of a rapidly evolving global regulatory environment.

WilmerHale Partner Matthew Chambers will be a featured panelist at this conference.
