

## Technology Assisted Review: A Practical Guide to Using Advanced Analytics

FEBRUARY 5, 2014

This presentation will critically analyze Technology Assisted Review, also referred to as "predictive coding," as a tool which will result in a substantial decrease in eDiscovery costs. Under this new technology, senior attorneys have the ability to review thousands of documents for both relevancy and privilege. This information provides an Artificial Intelligence (AI) with the ability to do the same with the remaining electronic storage.

Topics covered will include:

- What is Technology Assisted Review?
- Different Coding Algorithms
- Differences in Software
- Predictive Coding Methodology
- Managing Workflow
- Validation

WilmerHale Managing Director of DiscoverySolutions Steven Berrent is a featured speaker at this event.
