

The Indus Entrepreneurs: Real Estate

2008-10-14

Historically, investors counted on real estate for its favorable risk/return potential, but currently historically high real estate prices and lower yields have challenged this business [model](#). At this event, hosted by TiE, attendees will have the opportunity to hear from speakers who will address the range of issues that the new real estate market presents for two types of investors: those who own properties directly and those who rely on publicly traded real estate securities (REITs). The focus of the presentation will be to provide an understanding to investors and their advisors on how to capitalize on the opportunities that commercial real estate offers.

WilmerHale is a sponsor of this event.
