

TiE Startupcon 2016

BOSTON, MA

TiE StartupCon is the largest startup conference on the East Coast organized by TiE-Boston. Boston is one of the best cities to turn a great idea into a successful startup. Its resources for capital, networking and advisement, are bountiful; the key is to be in an environment where one can learn the best ways to find and leverage these resources. TiE StartupCon brings a well-established and respected network while advising attendees on the latest and greatest trends in startup life from successful entrepreneurs who have lived through it themselves.

The day will feature panelists from noteworthy startups and investment capital firms and three keynote speakers including Bob Langer and Shared Economy Panel. The panels will follow three tracks: "Ideate & Innovate," "Scale," and "What is trending in Tech, Healthcare and Pharma."

Throughout the day, attendees will have opportunities to network with like-minded entrepreneurs and influencers. The mentor lunch will allow young entrepreneurs to converse with successful business persons and is suggested for those who wish to seek guidance on their own path to success.

There will also be a networking reception and dinner.

WilmerHale is an organization sponsor.
