

## Womensphere 8th Annual Summit: Creating the Future – Advancing Women in Leadership & Innovation

NEW YORK, NY

To succeed and thrive in today's increasingly uncertain, complex and hyper-connected world—and to play an active role in creating the future and transforming the world—companies, academic institutions, organizations, new ventures and their leaders, must develop the vision, leadership and innovative and entrepreneurial capacity to rise to what the world needs. Women must become an integral part of this global vision and process and must be equipped to contribute to global leadership, innovation, entrepreneurship and the achievement of the new Global Goals. Towards these ends, the 8th Womensphere Annual Summit will explore such themes as technology megatrends; global grand challenges and global goals; new models of leadership and innovation; and emerging women leaders; among others.
