

Xconomy Forum: Robo Madness West

SAN JOSE, CA

With self-driving cars, delivery drones and automated retail systems just around the corner, startups and big companies alike are investing big money into robotics. They're capitalizing on advances in distributed sensors, human-computer interaction and machine intelligence to solve new problems in business and industry.

But what are the real opportunities and pitfalls in these markets? Which emerging technologies and business models hold the most promise? At Xconomy's fifth annual robotics event in Silicon Valley, held in partnership with the 2016 Sensors Expo & Conference, an elite group of tech and business leaders will discuss these questions—and present their visions for the future.
