
WilmerHale Represents Akamai in Acquisition of Nominum

NOVEMBER 29, 2017

On November 27, 2017, Akamai Technologies, Inc. announced the company completed its acquisition of Nominum, a provider of DNS-based security solutions supporting many of the world's leading carriers. The combination of the two companies' technologies and teams is expected to help Akamai serve a larger base of carrier and enterprise customers with more comprehensive security products designed to identify, block and mitigate cybersecurity threats such as malware, ransomware, phishing and data exfiltration.

The WilmerHale deal team representing Akamai included [Hal Leibowitz](#), [Bill Caporizzo](#), [Jeffrey Hermanson](#), [Belinda Juran](#), [Amy Null](#), [Meghan Walsh](#), [Mark Nylen](#), [Alex Civetta](#) and [Jasmine Haddad](#).
