
Bay Area News Recognizes WilmerHale Among Top Workplaces for Third Consecutive Year

TUESDAY, JULY 07, 2015

For the third consecutive year, WilmerHale's Palo Alto office has been recognized among the region's Top Workplaces by *Bay Area News*. A total of 100 companies were honored and WilmerHale was one of only four law firms ranked.

Since opening in 2005, the firm's Palo Alto office has grown to include nearly 70 attorneys who serve clients ranging from Fortune 50 corporations to venture-backed startup companies. Work for these clients focuses on areas that match the requirements of Silicon Valley companies with the firm's core strengths: corporate finance and M&A; intellectual property litigation, counseling and transactions; patent prosecution; securities enforcement and litigation; cross-border transactions and litigation; and government investigations and white collar criminal litigation.

The Top Workplace ranking is based solely on an employee survey measuring feedback on local and overall leadership, compensation and training, and workplace flexibility and diversity.

Bay Area News celebrated the firm and all other honorees at an awards event on June 25 at Levi's Stadium in Santa Clara, California.
