
Hale and Dorr Expands Intellectual Property Department

AUGUST 14, 2002

We are pleased to announce that [Eric L. Prah](#) has joined Hale and Dorr as a partner. Mr. Prah will oversee Hale and Dorr's Electrical Patent Prosecution Practice.

"We are delighted to welcome Eric Prah to Hale and Dorr," said James B. Lampert, partner and chair of Hale and Dorr's Intellectual Property Department. "Eric will be responsible for much of our complex and sophisticated computer, optics, Internet and software intellectual property matters. As a general practice law firm, Hale and Dorr continues to aggressively expand its intellectual property practice to meet the increasing needs of our clients in an area which is so vital to their growth and development. Eric's experience and proven ability to obtain important patents in physics, optics, electrical and software technologies will enable the firm to continue that growth and ensure the continued success of our clients."

Mr. Prah joins Hale and Dorr after 14 years in the Boston office of Fish & Richardson P.C. He was a principal of the firm for 10 years. Mr. Prah spent seven years with the Federal Trade Commission, where he was a staff attorney focusing on federal antitrust and consumer protection. For three years he was a semiconductor circuit design and fabrication engineer at Nova Devices and Transitron Electronics. At both companies, he was responsible for the design of integrated circuits, high performance

operational amplifiers, regulators, multipliers, and A-D converters.

Mr. Prah1 holds an S.B. and S.M. in electrical engineering, and an electrical engineering degree from the Massachusetts Institute of Technology. He earned his J.D. from Northeastern University School of Law, and his M.A. in economics from Cleveland State University. Mr. Prah1 is registered to practice before the United States Patent and Trademark Office. He is also admitted to the bar in Massachusetts.
