## *Legal Times* Names Charlene Barshefsky a “Leading Lawyer” for International Trade

2007-09-17

WilmerHale Senior International Partner [Charlene Barshefsky](#) was named one of only 10 “Leading Lawyers” in International Trade in the September 17, 2007 issue of *Legal Times*. Barshefsky is internationally known for her countless trade and investment agreements with countries across the globe, and as the architect and negotiator of China’s WTO Agreement. The *Legal Times* feature states that Barshefsky “stands out in the trade field, her sophisticated counsel sought by Fortune 100 companies on a range of issues.” Cisco System Inc.’s general counsel Mark Chandler states that Barshefsky’s “level of knowledge about how things will work in a very complex area is really extraordinary. There are a lot of good lawyers who can look at a sheet of music and tell you what the notes are. Charlene understands the melody, as well.”
