
Participate in the 2015 CompStudy Survey of Venture-Backed Tech and Life-Sciences Companies

JULY 31, 2015

WilmerHale invites you to participate in the 2015 CompStudy survey of equity and salary compensation for executives at venture-backed life sciences and technology companies. Now in its 16th year, the CompStudy survey is co-produced by Park Square Executive Search, WilmerHale and EY, in association with a Harvard Business School professor.

Complete the survey by August 31 to receive a full year of online access to the published results at no cost. The study results provide essential information to keep venture-backed companies and investors informed of current trends in senior executive compensation and organizational structures.

The survey consists of a web-based questionnaire that will take approximately 60 minutes to complete, and can be filled out by a single member of a company's executive team. All submitted information is kept confidential and names of participating companies are never shared.

To take the survey, please visit www.compstudy.com.
