
WilmerHale Advises Vtesse in \$17M Series A Funding

JULY 26, 2016

Vtesse, Inc., a company committed to developing drugs that will benefit patients with extremely rare, life-threatening diseases, secured \$17 million in Series A funding in support of its global, pivotal clinical trial of VTS-270 for Niemann-Pick Type C1 disease (NPC).

The company's ongoing Phase 2b/3 prospective, randomized, double-blind, sham-controlled trial of VTS-270 is being conducted in patients affected by NPC disease. It is a three-part efficacy and safety trial of VTS-270, administered by the intrathecal route (IT) every two weeks, with planned enrollment of approximately 51 patients.
