## WilmerHale Jumps to Top Ten in PLC's Life Sciences Super League

2007-04-17

WilmerHale earned a place in the top ten among 20 elite law firms in PLC's Life Sciences Industry Super League, published in *PLC Quarterly*. Moving up ten places to ninth place, the firm is noted as this year's biggest riser with "corporate and partnering transactions, and IP litigation, continu[ing] to be the most highly visible practices at the firm."

PLC's research is determined by the results of law firm and lawyer recommendations, as they appeared in the latest *PLC Cross-border Life Sciences Handbook*. In the handbook published in December 2006, PLC acknowledges seven individual WilmerHale lawyers for leading the firm in its life sciences work: [Alfred C. Server, M.D., Ph.D.](#), [Steven D. Singer](#), [William F. Lee](#), [David E. Redlick](#), [Henry N. Wixon](#), Robert Barry and [Steven D. Barrett](#).
