
International Arbitration in the Energy Sector

JANUARY 8, 2018

International Arbitration in the Energy Sector, edited by WilmerHale Special Counsel Maxi Scherer and published by *Oxford University Press*, puts international energy disputes into a global context, providing broad coverage of different forms and systems of dispute resolution across both renewable and non-renewable sectors. With contributions from practitioners, arbitrators, academics, and industry leaders from across the globe, the 18 chapters in the book enable readers to compare the approaches to, and learnings from, energy arbitrations across various legal systems and geographic regions.

WilmerHale's Steven Finizio and Michael Howe authored the chapter titled "Gas Supply Transactions and Disputes."
