MAY 22, 2018

Nicolás Costábile has authored a chapter in “[40 Under 40 International Arbitration \(2018\)](#), Carlos González-Bueno (ed.)” (2018, Dykinson). The chapter is titled “Early dismissal of unmeritorious claims or defenses in international arbitration.” It provides an overview of the mechanisms for early dismissal available in both international commercial and investment arbitration, and discusses the main issues to overcome for mechanisms of early dismissal of non-meritorious claims and defenses to become a widespread feature in international arbitration.
