Clients rely on our globally recognized Intellectual Property Litigation Practice to provide high-quality and innovative solutions to the most complex legal and business issues. We have helped companies defend their interests in jurisdictions across the United States and internationally. Our lawyers have tried cases in federal district courts throughout the United States, and we appear frequently in the top jurisdictions for patent cases, including the District of Delaware, the Central, Northern, and Southern Districts of California, the Eastern and Western Districts of Texas, as well as in the International Trade Commission.

We also have substantial appellate experience and have been recognized for our strong track record in the Federal Circuit and for our involvement in important patent cases decided by the US Supreme Court. Additionally, we represent patent owners and challengers in *inter partes* review (IPR) proceedings before the Patent Trial and Appeal Board (PTAB) and have a keen understanding of how those proceedings can impact pending litigation matters. Our lawyers in the United States, the United Kingdom and Germany also regularly work together to manage our clients' global IP disputes.

Our clients—which range from Fortune 500 companies with large IP portfolios and in-house legal staff to startups with small legal departments—rely on our litigation team for its unique multidisciplinary approach. We staff cases with skilled litigators and lawyers with deep technical knowledge, who also work efficiently with colleagues across practices to achieve remarkable results. Because we have more than 100 lawyers with scientific and technical backgrounds, clients also trust us to truly understand their innovations and the business concerns related to their patents.

With more than 200 general IP, IP litigation and appellate lawyers, we offer clients a deep pool of experience across all issues related to their intellectual property. Our lawyers have prevailed in notable disputes for many of today's most significant companies in technology,

pharmaceuticals and other industries. This breadth of experience and the outstanding ability of our practitioners has garnered regular and noteworthy accolades from across the spectrum of legal-industry publications including *Chambers USA*, *Managing IP* and *The American Lawyer*.

Defeated a \$3 billion damages claim on behalf of **Intel** in a hedge fund-backed patent challenge in the second installment of “The Waco Trilogy”—a series of three trials in the Western District of Texas that are part of a larger global war between technology leader Intel and VLSI.

Achieved a trial victory for **Apple** marking a significant milestone in the company’s seven-year fight to hold Samsung Electronics accountable for copying the original iPhone and applying patented Apple designs and features to numerous Samsung phones. After four days of deliberation, a jury awarded \$539 million in damages to Apple. Apple and Samsung later announced a settlement of all remaining patent litigation between them.

Prevailed at the ITC, the U.S. district court, and then twice before the Federal Circuit on behalf of **Intel**, **Apple**, and **Hewlett-Packard** after X2Y Attenuators LLC claimed that Intel’s microprocessors, and the Apple and HP computers containing them, infringed multiple X2Y patents.

Won a major, complete victory for **Bristol-Myers Squibb** and **Pfizer** in one of the largest Hatch-Waxman cases ever filed. A district judge found the patents covering our clients’ blockbuster drug Eliquis® were valid and infringed by all generics challenging them. This case covered 25 generic companies and likely protects Eliquis® until at least 2031.

Earned a milestone victory for **Becton Dickinson (BD)** that ended an eight-year multinational patent infringement dispute with Braun Melsungen in US district court, the Federal Circuit, the PTAB and numerous jurisdictions across the globe. Eleven patents were asserted against BD in the US, and more than 60 patents in a half dozen countries were asserted outside the US. Braun ultimately settled the global dispute and gave BD a broad portfolio license.

Prevailed on behalf of **Swatch Group Ltd.** in a counterfeiting case against a Canal Street landlord after being brought on as counsel days before trial. Following a one-week trial, a jury unanimously found the landlord liable for contributory trademark infringement. The jury further awarded \$1.1 million in damages based on the sale of a single counterfeit Omega.

Obtained a full defense verdict for **Bombardier Recreational Products (BRP)** defeating a \$130 million trademark infringement claim brought by Jaguar Land Rover. Following an eight-day trial with 19 witnesses, the jury rendered a 7-1 verdict in BRP’s favor, finding that BRP’s Can-Am Defender off-road vehicle did not infringe Land Rover’s trademark for DEFENDER.

Achieved a noteworthy victory for **Takeda**’s wholly owned subsidiary, **Millennium**

Pharmaceuticals, at the Federal Circuit when the appeals court reversed a district court finding of patent invalidity based on obviousness and remanded the case with instructions to enter judgment in favor of Takeda. This Hatch-Waxman matter involved a patent owned by the US government and exclusively licensed to Takeda covering the latter's blockbuster oncology drug Velcade® which has annual US sales in excess of \$1 billion.

Earned a major win for **Ancestry** when a district court judge granted our motion to dismiss finding that all patent claims asserted by 23andMe were invalid because they were directed to patent ineligible subject matter. This case was the first major legal clash between the two top genetic testing companies in the country, and upon appeal to the Federal Circuit, the panel unanimously affirmed the district court's decision.

Recognition

IP Litigation Department of the Year Law Firm of the Year in Patent Law

The American Lawyer

CONSISTENTLY RECOGNIZED AS A TOP FIRM

*U.S. News - Best Lawyers® Best Law Firms
List*
